YOU

Our electricity didn't do nearly as much for the class of 1940 as it does for the graduating class of today. It didn't run their TV, stereo, clothes dryers and a lot of other things that weren't even around in those days.

Today, even though our electricity does more for you, it still does it at a low, low cost. Tomorrow, you'll demand even more energy from us . . . and we'll be ready with more than enough to meet your needs. Because we care how you live.
